**INFORMATION DISCLOSURE STATEMENT (IDS)**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

Applicant wishes to call to the attention of the Examiner the following documents, copies enclosed, which may be considered material to the examination to the above identified application:

**OTHER DOCUMENTS**

Copies of three photographs (marked "C-1", "C-2" and "C-3") show a prior art brush. As shown in items C-1 through C-3, a brush 14a is shown therein in fragmentary form and is a conventional prior art blanket cylinder cleaning brush. Such a brush is employed in a conventional blanket cylinder cleaning system of the type shown in document C-4.

The bristles B (C-3) of the prior art brush 14a are formed of a Nylon material having a bristle diameter (BD1) of about six thousandths of an inch (0.006"). In the example shown, the bristles B are disposed on the central shaft of the conventional brush 14a according to a first density DEN1. The Nylon bristles B of the conventional brush 14a are known to exhibit an absorbency rate of ABS1 due at least in part to the conventional Nylon material. Further, the Nylon bristles B of the brush 14a will exhibit a stiffness characteristic S1, which, for purposes of discussion herein, will generally be acknowledged to be relatively flexible.

Pursuant to 37 CFR 1.56, 1.97 and 1.98, the attention of the Patent and Trademark Office is hereby directed to the references listed on the attached PTO/SB/08. It is respectfully requested that the information be expressly considered during the prosecution of this application, and that the references be made of record therein and appear among the "References Cited" on any patent to issue therefrom.

This Information Disclosure Statement is filed within three months of the U.S. filing date (37 CFR 1.97(b)(1)).

A copy of each reference on PTO/SB/08 is attached.

In accordance with 37 CFR 1.97(g), the filing of this Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information as defined in 37 CFR 1.56(a) exists. In accordance with 37 CFR 1.97(h), the filing of this Information Disclosure statement shall not be construed to be an admission that any patent, publication or other information referred to therein is "prior art" for this invention unless specifically designated as such.

It is submitted that the Information Disclosure Statement is in compliance with 37 CFR 1.98 and the Examiner is respectfully requested to consider the listed references.

The Director is hereby authorized to charge any deficiency in the fees filed, asserted to be filed or which should have been filed herewith (or with any paper hereafter filed in this application by this firm) to our Deposit Account No. 13-2855, under Order No. 27600/M303A. A duplicate copy of this paper is enclosed.

Dated: November 21, 2003

Respectfully submitted,

By
